JavaScript, React, Node, HTML, CSS, SCSS, Express, MySQL, Knex.js, NGINX, Digital Ocean, Ubuntu, Git, GitHub, GitLab, TypeScript, Next.js, Tailwind.css, Photoshop, Figma, Illustrator, JSON, npm, JWT

EDUCATION

Diploma - Web Development
Jul 2022 - Sep 2022
BrainStation, Toronto, ON

Bachelor of Arts (B.A.) - Psychology
Sep 2007 - Jun 2012
York University, Toronto, ON

As a software developer who lives and breathes code, I left behind my career as an ESL teacher in Japan and completed a coding bootcamp in my pursuit of a career in software development. With an unwavering passion for creating digital solutions, I thrive on designing visually stunning user interfaces and building scalable microservices that address real-world challenges. I constantly push the boundaries by researching and implementing emerging technologies, ensuring my skills remain at the forefront of the industry. A natural collaborator and experienced communicator, I effortlessly adapt my communication style to connect with clients and colleagues. I'm driven by a commitment to lifelong learning, continuously seeking professional development opportunities and embracing mentorship. I'm eager to join a team where I can contribute to projects that have a meaningful impact on people's daily lives.

EXPERIENCE

Full Stack Developer   Dec 2022 - present
Freelance
- Collaborated closely with clients to develop customized solutions that meet their needs.
- Designed visually stunning user interfaces using Figma, Photoshop, and Illustrator, resulting in increased user engagement and satisfaction
- Developed scalable and efficient microservices using modern technologies such as Node.js, React, and MySQL, resulting in improved system performance and reliability
- Created custom CMS solutions, resulting in streamlined content management and improved user experiences for admins and end users
- Actively researched emerging technologies and tools to stay up-to-date with industry trends and best practices, resulting in the adoption of new approaches and techniques to improve project outcomes

Web Development Teacher's Assistant   Sep 2022 - Dec 2022
BrainStation, Toronto, ON
- Collaborated closely with lead instructors, leveraging my strong knowledge of development topics to provide students with the most up-to-date and relevant information, resulting in improved learning outcomes and student satisfaction
- Reviewed and debugged coding projects, providing detailed feedback and support to improve coding skills and deepen understanding of programming concepts, resulting in significant improvements in their proficiency and confidence
- Offered guidance and support to overcome technical challenges and improve code quality, resulting in enhanced learning outcomes and greater success rates
- Facilitated group projects and whiteboarding sessions, creating an engaging and supportive environment, resulting in increased success rates
- Demonstrated exceptional communication and interpersonal skills, building trust and rapport with students with different skill levels, and collaborating effectively with colleagues to create a cohesive and dynamic learning experience

ESL Teacher/Instructor   Apr 2018 - Mar 2022
Overseas Training Center & YMCA, Osaka
- Demonstrated a strong sense of empathy and adaptability by adapting teaching methods to meet unique needs
- Collaborated closely with management and colleagues to ensure consistency and alignment across lessons and to identify areas for improvement and growth.
- Sought out and welcomed feedback continually working to improve teaching effectiveness, refining communication and interpersonal skills.
- Demonstrated problem solving skills by developing creative and effective materials.
- Monitored student progress and provided regular feedback and support to ensure ongoing development and success.
- Communicated effectively with students, colleagues, and parents from diverse cultural and linguistic backgrounds, leveraging strong interpersonal skills to build trust and foster a positive environment.
- Demonstrated a commitment to ongoing learning and professional development, staying up-to-date with the latest teaching methodologies, technologies, and trends in the field.
